

Healthy indulgence over the rooftops of Zurich

Hiltl reaches upwards!

Zurich, September 2015

On September 2, the Hiltl Dachterrasse opens on top of the PKZ WOMEN store at Bahnhofstrasse 88 in Zurich. With a stylish restaurant, a cafe, lounge and bar, guests can enjoy the popular vegetarian and vegan Hiltl specialties in a green oasis in the heart of Zurich's world famous shopping street.

On Wednesday September 2, the Hiltl Dachterrasse opens on the 3rd floor of the PKZ WOMEN store at Bahnhofstrasse 88. Comprising a restaurant with lounge, café and a bar in a stylish setting overlooking the roofs of Zurich, this innovative gastronomy concept serves popular vegetarian and vegan Hiltl specialties. Guests can enjoy the ever-popular Hiltl sounds while they dine, and the restaurant serves healthy indulgence with 150 seats spread over two terraces and an indoor area. In addition to the popular Hiltl buffet of homemade hot and cold dishes, specialty teas and coffees, refreshing soft drinks, iced teas, freshly squeezed juices and cocktails are available. The rooftop restaurant remains open even in the colder seasons and invites you to healthy indulgence in congenial surroundings.

Take a break from the city in a green oasis

With the commitment of production designer Ushi Tamborriello and her team, the interior remains true to the Hiltl style: "Visitors are received in a fully glazed interior which merges fluently into two large terraces. On rustic wooden benches, stylishly upholstered chairs or comfortable rattan armchairs, each guest can find a comfortable place to sit. In the centre of the restaurant are the mobile Hiltl buffet and the kitchen, which open out from the grey stone bar. "With probably the longest chandelier in Zurich, Tamborriello makes the room shine. With the patios, the lush vegetation and the versatile landscaping by family firm Ernst Meier from the Zurich Oberland, a green oasis has been created that invites one to a soothing break from city life. A special highlight is Meier's creative arrangement of greenery, providing a garden in bloom all year round.

Hiltl - Healthy Indulgence Since 1898

According to Guinness World Records, Hiltl is the world's oldest vegetarian restaurant. Opened in Zurich in 1898, it is now run by the fourth generation of the Hiltl family. What was once nicknamed "root bunker" has grown into a hip à la carte restaurant with the famous Hiltl buffet, self-service and takeaway, a bar-lounge, a club, a cooking workshop and seminar spaces. Outside the city centre headquarters, Hiltl offers homemade specialties by catering to private parties and major events in unique locations in Zurich. During the summer months, lakeside Hiltl restaurants are open at the Lido Mythenquai and Kilchberg.
